

BLOXELS®

BUILD YOUR OWN ARCADE CABINET

You've built your game, now it's time to show it off... in your own custom arcade cabinet. Using cardboard, a few simple tools, and some creativity, you can make a one-of-a-kind setup to hold a tablet for your Bloxels game. Let's get started!

MATERIALS

CARDBOARD

GLUE GUN OR TAPE

SCISSORS

GLUE STICK

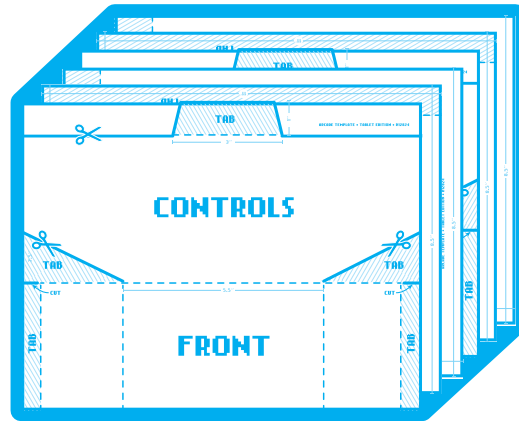

PAINT, MARKERS, WIDGETS,
DOODADS, AND CREATIVITY

ARCADE CABINET INSTRUCTIONS

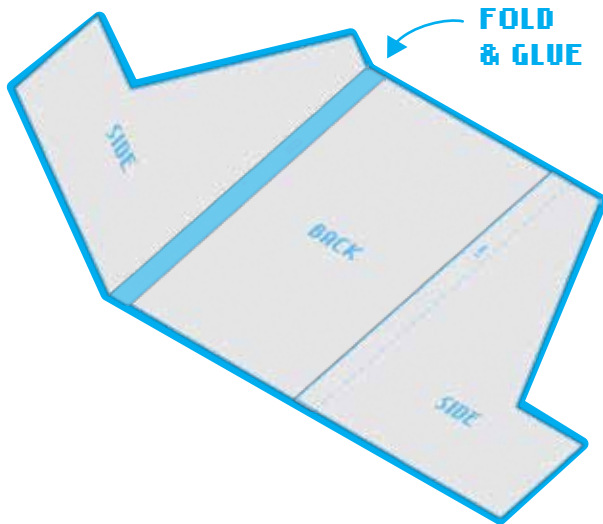

STEP ONE

Print template at full size (8.5"x11") and attach to cardboard sheets. A glue stick can help with this.

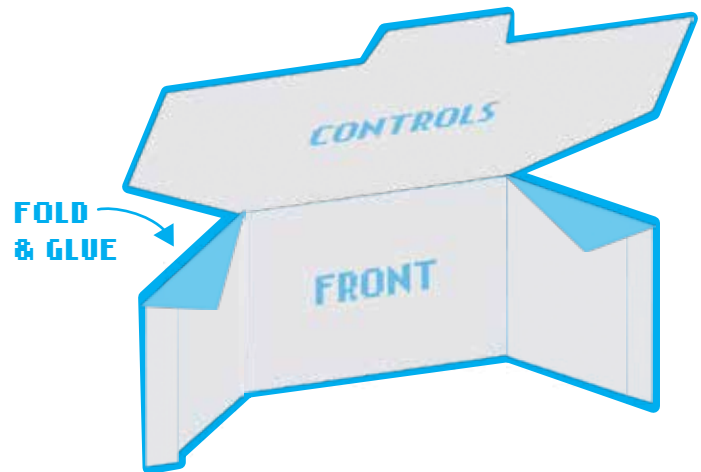

Cut out the cabinet parts.

Be careful! Do not cut dashed fold lines.

STEP TWO

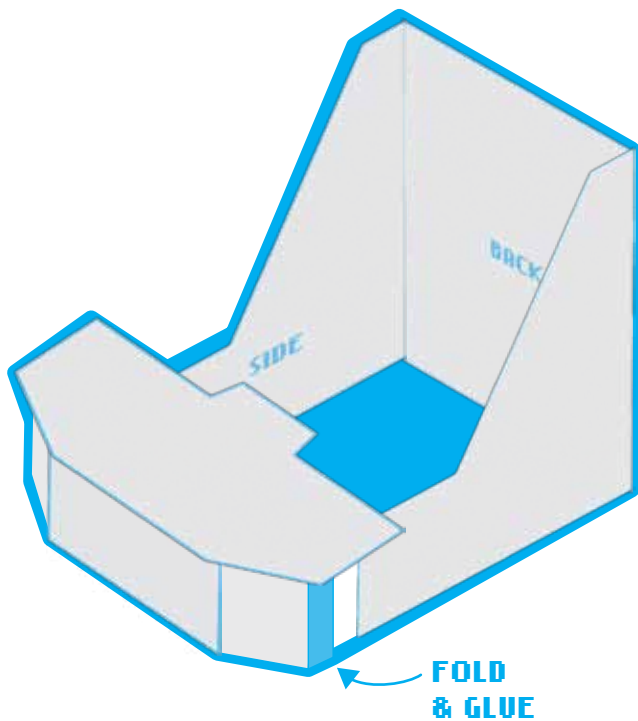

Glue the sides to the back of the cabinet and fold in where indicated.

STEP THREE

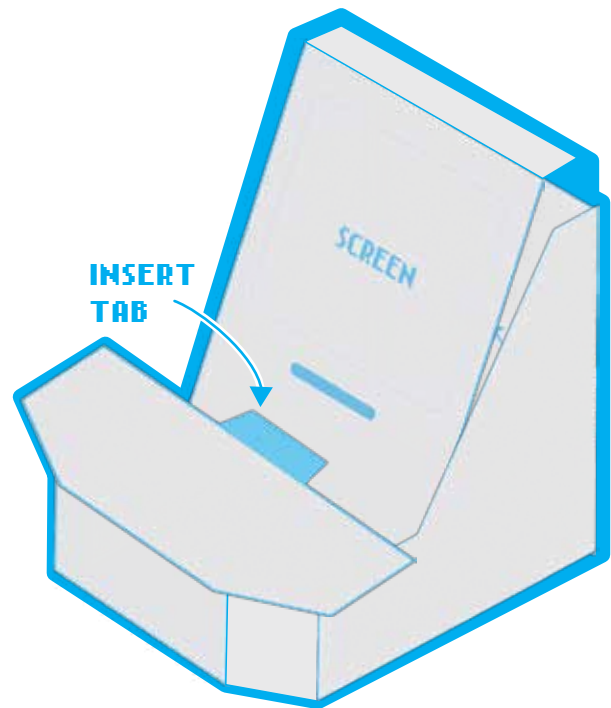

Fold the front of the cabinet. Glue the triangular tabs to the bottom of the control panel for support.

Note: In the end, the template will be on the inside of your cabinet, so you can fully customize the outside!

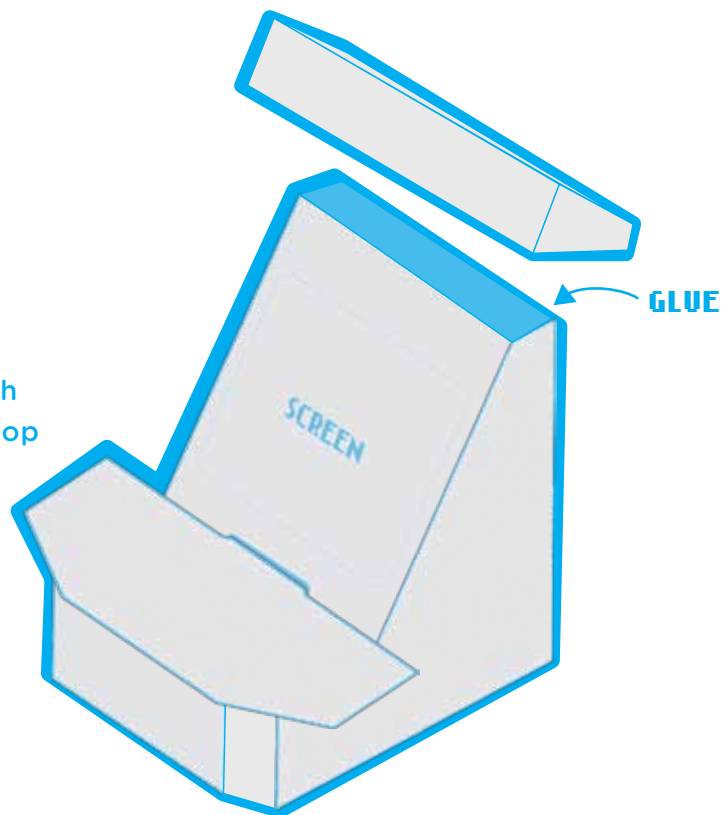

STEP FOUR

Secure the front to the sides with glue on the side tabs. The control panel will sit on top of the sides for extra support.

STEP FIVE

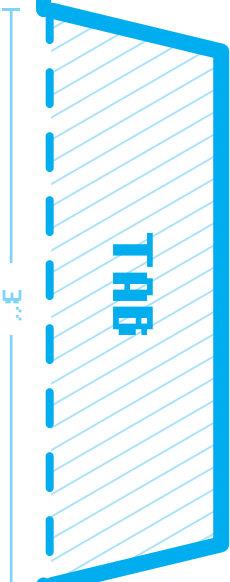

Insert the screen and secure it with the tab on the control panel.

STEP SIX

Fold and assemble the marquee. Attach it with glue to the top of the cabinet.

The base is now complete, and it's time to make it your own!
